## PROFESSIONAL SUMMARY

Full Stack Developer with 3 years of experience building scalable web applications using .NET Core, ASP.NET Web API, and Angular. Experienced in designing RESTful APIs, optimizing backend performance using Redis caching, and building responsive front-end interfaces using Angular and TypeScript. Strong expertise in database design, API integration, and automated testing using xUnit, NUnit, and Jest. Proven ability to deliver reliable software solutions in Agile environments while maintaining high code quality and system performance.

## TECHNICAL SKILLS

- **Backend**  
C#, .NET Core, ASP.NET Web API, REST API Development, LINQ, Dependency Injection, Entity Framework, JWT Authentication
- **Frontend**  
Angular, React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Angular Material
- **Database**  
SQL Server, PostgreSQL, MongoDB
- **Caching & Performance**  
Redis Cache, API Performance Optimization
- **Testing & Code Quality**  
xUnit, NUnit, Jest, Moq, SonarQube
- **Tools & Technologies**  
Git, GitHub, Docker, Postman, JIRA
- **Development Practices**  
Agile/Scrum, REST API Design, Software Development Lifecycle (SDLC), Code Review

## PROFESSIONAL EXPERIENCE

- **Tech Anand Rathi IT Pvt. Ltd.( Associate Developer – Full Stack )** 02-05-2023 - Present  
Worked on enterprise insurance platforms including GIA and Benefit Plus for policy management, insurance comparison, and claim tracking.  
Key Responsibilities
  - Developed RESTful APIs using ASP.NET Core Web API for insurance policy management systems.
  - Built responsive Angular-based user interfaces for policy tracking and document management workflows.
  - Implemented Redis caching, improving API response time and reducing database load for frequently accessed data.
  - Developed backend business logic for loan-linked insurance coverage calculations based on loan amount and policy rules.
  - Integrated third-party APIs for insurance data processing and policy services.
  - Maintained high code quality by implementing unit tests using xUnit, NUnit, and Jest, improving application reliability.
  - Participated in Agile development cycles, including sprint planning, code reviews, and cross-team collaboration.
  - Troubleshoot production issues and optimized backend queries to improve system performance.

## PROJECT EXPERIENCE

- **Insurance Policy Management System (GIA & Benefit Plus)**  
Technologies: .NET Core, ASP.NET Web API, Angular, SQL Server, Redis
  - Developed backend APIs to manage insurance policies, user data, and claims.
  - Built Angular-based dashboards for policy comparison and management.
  - Implemented Redis caching to improve performance of frequently accessed endpoints.

- Integrated external services for insurance policy data processing.
- Designed secure API endpoints following RESTful architecture and authentication practices.

## EDUCATION

---

- **Rajasthan Technical University** 2016 - 2020  
Bachelor of Technology – Electrical Engineering  
66.15%

## CERTIFICATIONS

---

- TCS NQT – Tata Consultancy Services (2025)
- Foundational C# with Microsoft – FreeCodeCamp (2024)
- TCS MasterCraft DevPlus Scrum Management Edition – MasterCraft Academy (2024)
- Angular Material Basics – Udemy (2023)

## SOFT SKILLS

---

- Problem Solving
- Analytical Thinking
- Team Collaboration
- Communication

## INTERESTS

---

- Exploring New Technologies
- Playing Strategy Games
